

AQUALABO

OENOLOGICAL ANALYZES

WINEMAKING DATASHEET

Control the wine quality thanks to accurate and reliable equipments, here lies the main goal to enhance production.

AQUALABO offers a range of instruments and reagents for wine making and oenology.

INSTRUMENTATION

SPECTROPHOTOMETRY

Uviline Serie : for all your
UV-Visible spectrophotometric analysis

HANDHELD MULTIPARAMETER

Odeon multiparameter with sensors (pH, ORP, oxygen, conductivity, turbidity, temperature)

LABORATORY EQUIPMENT

Aqualabo offers a large number of items to equip your laboratory, from the small bench material to the furniture. Do not hesitate to browse our catalog or consult us for all the equipment you need.

CHEMICAL PRODUCTS

AQUALABO also offers many reagents and solutions. They are manufactured in our laboratory and subject to rigorous control.

We can customize these reagents with the label of your company. We can also make your reagents according to your own formulations.

SOLUTIONS

Sodium hydroxide N

Sodium hydroxide N / 10

Fehling Liqueur

Iodine N

Iodine N / 10

Iodine N / 50

Iodide / iodate (KIKIO3) N / 50

Iodine / iodate (KIKIO3) N / 64

Starch indicator

Methylene blue

Phenolphthalein

Phenol red

Bromothymol Blue

Total Alkalinity Indicator

Non-exhaustive list

Sulfuric acid 1/3

Sulfuric acid 1/10

Orthophosphoric Acid 25%

Hydrochloric acid 1/4

Hydrochloric acid 1/2

Hydrochloric acid 0.05N

Potassium thiocyanate 20%

Hydrogen peroxide 10 vol

Demineralized Water

Ethanol 90/95% Vol

Tartaric acid

Ascorbic acid

RELIABLE AND ACCURATE
ANALYSES

QUALITY MONITORING

Being also expert in water analysis, we can provide all solutions for the analysis of your wash water or effluent.

Hardness, chlorine, COD, nitrogen, nitrate, phosphorus ... Consult us for all our solutions!
